PROJECTS

Yelp Usability Testing Sept. 2017 - Dec. 2017
Project Member

- Evaluated Yelp's desktop website to determine how well it meets its goals and user needs
- Collected and analyzed feedback through interviews, surveys, A/B tests and usability tests

University of Michigan Web Scheduler March 2017 - April 2017
Project Member

- Developed a website which displays useful, up-to-date course information to assist students in scheduling classes
- Class data was retrieved from the University of Michigan database of courses and course information using the U-M schedule API
- Integrated the Google Maps API to display the location of the classes and scraped professor ratings from Rate My Professors using BeautifulSoup

WORK EXPERIENCE

University of Michigan Medical School | Ann Arbor, MI Summer 2017
Office of the Dean, Office Assistant

- Assisted with daily operations in a professional office environment by maintaining supplies and equipment, receiving and distributing communications, and routing phone calls
- Managed computer setup and troubleshooting during executive meetings

University of Michigan | Ann Arbor, MI Summer 2016
Office of Development, Prospect Development and Analytics
Student Analyst

- Preserved the accuracy and integrity of the DART (Donor and Alumni Relationship Tool) database through existing auditing policies and procedures
- Created resources with information about prospective donors to focus the efforts of development officers when cultivating donations

Huron-Clinton Metroparks | Dexter, MI Summer 2015
Toll Attendant

- Opened and closed toll booths at various metroparks which involved verifying change drawers in the morning, selling permits to park visitors, and balancing sales with cash receipts at the end of the shift
- Communicated courteously and efficiently with park visitors regarding park rules, policies, and regulations
